**WINE
LIST**

“

Wine is more than just a compliment to a dish.
It enhances its flavours to mesmerizing levels.
To achieve such an experience,
we choose wines not only from local but from international producers,
from well known varieties to emerging indigenous ones.
But most importantly,
wines that are textbook examples of their region and style.
We believe that wine is a kind of art and culture.
A journey that blends flavours, labour, dreams and passion.
Lets travel together!
